

Indosat Announces Guidance for Fiscal Year 2009

Jakarta, March 30, 2009 – PT Indosat Tbk (“Indosat”) (IDX: ISAT / NYSE: IIT), a leading telecommunication and information service provider in Indonesia, today provided guidance for the financial year 2009.

Indosat is aiming to commit US\$600 million towards the development of fixed assets in all three lines of business, namely cellular, fixed data and fixed voice. In the light of current market volatility, guidance has been limited to the most conservative estimate, in line with the Company’s prudent approach.

Nonetheless, the Company has built in additional flexibility to allocate further amounts for capital expenditure, allowing management room to calibrate its response to further adjustments that may occur in business conditions.

Said Indosat President Director Johnny Swandi Sjam: “The outlook for 2009 remains uncertain not only for us but for the industry as a whole, and for the wider economy. However, we remain cautiously optimistic that Indosat is well-equipped to rise to any challenges, given our strength in the market place and the strong branding we have achieved in Indonesia. We will continue to strike a sound and strategic balance between financial prudence and making the necessary investments to grow the business sensibly. Guided by these principles, we hope to deliver on our commitment to providing the best services to our customers, and the best value to our shareholders.”
